## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 12-28, drawn to a microfeature, classified in class 257, subclass 686.
- II. Claims 29-39, drawn to a method for forming a microfeature device package, classified in class 438, subclass 15+.
- III. Claims 1-11 and 40-45, drawn to a microfeature device package system, classified in class 700, subclass 1+.

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as process of making and process of using the product. The use as claimed cannot be practiced with a materially different product.

Since the product is not allowable, restriction is proper between said method of making and method of using. The product claim will be examined along with the elected invention (MPEP § 806.05(i)).
